ABOUT THE COMPANY

VB Design Studio

The firm was established 11 years before, in the year 2006 by Ar. Vipin Bakiwala (Principal Architect).

We are an independent organization of Architects, Interior Designers, Exhibition designers, Product designers, Engineers, Contractors, etc with specialization in the respective fields. The spectrum of services rendered by our organization covers the entire range of project's activities right from inception & conception to the final execution of the project.

Our Role and Responsibilities as an Architect:

1. Design Role: We are responsible for creating a design concept that meets the requirements of the clients and provides the facility suitable to the required use. It is generally expected that the design proposal is both imaginative as well as pragmatic but the extent may depend on the place, time, finance, culture and available craft and technology in which the design takes place.

2. Construction Role: Depending upon the client's needs and the jurisdiction's requirements, the spectrum of our services during construction stages may be extensive or less involved. We typically review the vendors, sub-contractors and provide certificates to them which is based on the work done till date or any goods purchased.

3. Environmental role: As an architect we are required to take initiatives in a wider environmental sense, such as making provision for low footprint, natural daylighting, natural ventilation, pollution & waste management, use of recycled materials and employment of materials which can be easily recycled in future.

" The outer manifestations in space are reflections of the quality of our inner space and vice versa. It is our duty as architects to redefine and expand upon the brief given by the client so as to give him much more besides satisfying the functional requirements, in terms of the design's environmental relevance, quality of space and JOY. Working in a team, I believe that the diversity of individual experiences, interests and approaches is the key to the Practice. As a Designer I do not make distinctions between "Architecture", "Interiors" and "Landscape". I deal with SPACE ...in its entirety."

Ar. Vipin Bakiwala

Ar. VIPIN BAKIWALA

Earned B-ARCH from the MBM Engineering College, Jodhpur in 2004 where he received numerous honors and awards. He has worked and associated with many architects, engineers and developers over the past 13 years. He has worked independently on numerous projects - including residential, farmhouses, export houses, manufacturing units, schools, hospitals, corporate offices and many other commercial projects. Some of the projects are published in magazine - "The Design Source".

Memberships

Life Member - Indian Institute of Architects

Life Member - Council of Architecture

Life Member – Intach

OUR DESIGN TEAM

Ar. Surbhi Chittora

She graduated from Aayojan School of Architecture in 2013. She is passionate about interiors and landscaping with particular love for small details. "The devil lies in the details", she believes. She is a big foodie, loves to explore new places. She feels more like herself when around buildings with rich history.

Ar. Nanika Nagar

She graduated from Aayojan School of Architecture in 2014. She strongly believes that the most powerful tool an architect possesses is emotions which inject verve into the building as well as its residents. This theory forms the foundation of everything she creates. She is an amazing singer and has performed on stage several times.

Ar. Ginni Jain

She graduated from Indian Institute of Technology-Roorkee in 2015. She has an inclination towards functional planning and technical detailing of buildings. She thinks that only by taking a holistic approach we can make any building timeless. She is an avid reader and also devotes time to writing.

Anu Mehra

She is a graduate from University of Rajasthan and a diploma holder in Modern Office Management from Govt. Women Polytechnic College, Jaipur. She is a shopaholic and loves to sing. Managing an office effectively is also an art, she believes.

Sunividh

OUR RELATED FIRMS

The firm was established in four years before in year 2013 and it is majorly working in the field of:

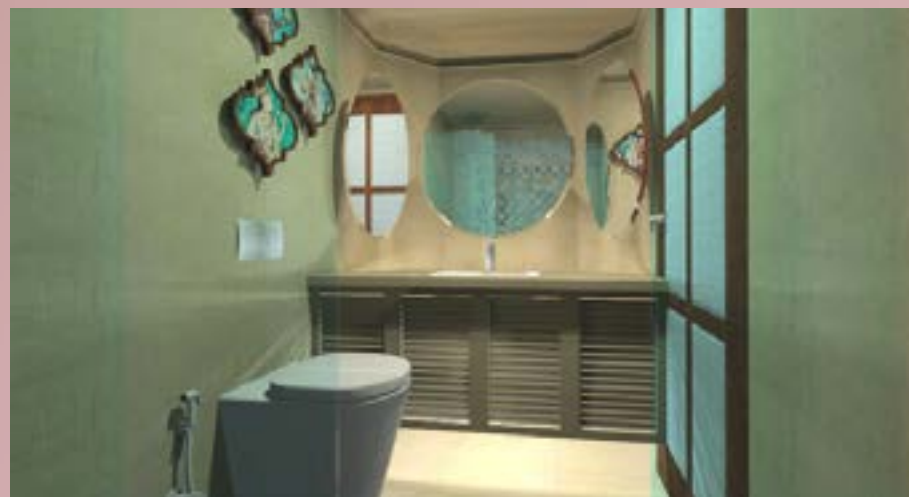

1. Art & Related Consultancy: As art consultants , the firm provides customised artwork for home, office, healthcare & educational environments. Typically, they understand the brief of the clients and seek and provide artwork to fit those specified needs.

2. Sculptures: The firm designs and manufactures stone sculptures at their own workshop. All the sculptures are made in imported stones with a variety of themes like abstract, realistic, roman, etc.

3. Paintings and Artefacts: As an art dealer, the company buys and sells works of art. The firm also participates in art exhibitions and shows both in India as well as at International level. The firm also makes it a continuous effort to collect art and artefacts from rural and tribal areas as well, thus supportes and provides them with a constant source of income.

Ms. Nidhi Jain: Graduate in Computer Sc. & Tech. (B.E.) from Mody College of Engineering, Jaipur in 2002 and Masters in Business Admin. in Finance from Malviya National Institute, Jaipur in 2004. Professional Graphic Designer having keen interest in art and related fields.

Pezala Designs

The firm was established as a Partnership firm two years before in the year 2016.

The firm is majorly working in the field of:

Turnkey Projects: The firm carries out turnkey projects wherein the firm agrees to design, construct and equip a manufacturing/ business/ service facility and turn the project over to the purchaser when it is ready for operation or use. The construction is carried out as per the pre-specified criteria for a price that is fixed at the time the contract is signed.

The firm has successfully completed many projects under this firm such as:

- a. **Dental Clove Clinic:** A series of clinics has been erected at several location in Jaipur by the firm.
- b. **Hotel Om Tower:** It was a great challenge for the firm to provide the wholesome and complete renovation of the Revolving restaurant and rooms of the hotel.

Ar. Kavita Jain: Graduate in architecture from Malaviya Regional Engineering College, Jaipur in 1996 and Post graduate in Conservation architecture from School of Planning and Architecture, New Delhi in 1999. Actively involved in heritage conservation and research projects.

Project Management Consultancy

Project Management of unique projects like schools, hospitals, hotels etc, requires thorough expertise and knowledge of the field. The firm plays multifaceted part in such projects and provides the services from inception to completion of projects. The firm typically works in line with client's requirements thus increases and improves the efficiency and outcome of a project from the construction stage itself.

The firm strongly supports its customer's business objectives and consistently delivers projects with outstanding standards of safety and environmental performance that meet cost, schedule and quality targets.

Our team typically consists of a Project Manager who manages the project, a Construction Manager for supervision and a group of design engineer, construction engineer and project architect. The team believes that efficiency in management is needed to gain a higher level in competitiveness.

Some of projects successfully completed by the firm are:

1. Schools
2. Hospitals
3. Jewellery Showroom

Year of Exhibition: 2017

Furniture Design- Khaat

Product designed for: Ms. Gaia Franchetti, Rome

Size: 2020 mm x 1070 mm x 520 mm

Scope of work: Furniture Design

Year of Completion: 2014

Design Philosophy: Ms. Gaia Franchetti who belongs to Rome expressed her desire for a piece of furniture which is deeply rooted in Indian traditions and is easy to disassemble and export. We used reclaimed wood from old furniture to create the four 'payas' and the horizontal members of the khat which were joined together by tenon joints. Mesmerizing traditional details were carved on the 'payas' by local craftsmen.

When disassembled, the pieces can be easily arranged in a box measuring 1800mm x 150mm x 150 mm.
